Re: Part A Application  
EPA I.D. Number KSD007246846

Dear Mr. Trombold:

The Kansas Department of Health and Environment (KDHE) has reviewed the revised Part A application submitted by Hydrocarbon Recyclers, Inc. (HRI) on August 14, 1990.

The Part A application was amended to increase HRI's drum storage capacity (S01) to 170,000 gallons. Approval is given for this expansion of container storage at the Wichita HRI facility. As per our phone conversation of August 27, 1990, I have corrected KDHE's copy of the revised Part A application. The process codes of S01, S02, T54 and T31 have been added to lines 1 through 4 of page 1 of Form 3. These were inadvertently omitted on the revised Part A submitted to KDHE. You stated that it was acceptable for KDHE to correct our copy and also agreed to correct HRI's copies of this document.

Thank you for your cooperation with the hazardous waste management program in Kansas. If you have any questions concerning this letter please call me at (913) 296-1612.

Sincerely,

*Brenda Clark*
